## 100ml Intensive Foot Mask Spray

An easy to use foot spray containing Glycolic Acid which exfoliates the heels and feet, removing dead skin cells and calluses making way for new skin to grow.

Glycolic Acid is the holy grail for exfoliation, effectively removing the outermost layer of dead cells, revealing brighter, fresher skin.

Glycolic acid works by loosening the glue-like substance that holds dull and dead skin cells on the top most layer of your skin, revealing newer, healthier skin. It also stimulates new cell generation.
